**Voorwoord:** Microfilm 423.450 op het Rijksarchief te Antwerpen bevat dopen van Zondereigen uit de periode 1723 - 1797. Een aantal van deze dopen zijn eveneens opgetekend in de parochieregisters van Sint-Remigius te Baarle. Deze zijn in deze klapper cursief gemarkeerd en wijken soms af met deze in de klappers van Sint-Remigius die we nog niet met de originelen van Sint-Remigius hebben geconfronteerd. In deze bewerking hebben we geprobeerd de gezinnen terug samen te stellen. Bij elk gezin wordt bij iedere dopeling achtereenvolgens de geboortedatum (indien vermeld), de doopdatum, naam van het kind, de doopgetuigen en uiteindelijk de namen van de ouders zoals ze iedere keer waren opgetekend in de doopregisters, vermeld.
